DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a system and method for transacting an anonymous purchase by transacting the purchase between a purchaser a retailer using intermediary credit account information for maintaining the anonymity of the purchaser, classified in class 705, subclass 74.
 - II. Claims 15-35, drawn to a system and method for distributing an electronic cash card by funding the cash card at a retail outlet upon the purchase card for a predetermined value by a purchaser, classified in class 705, subclass 74.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because as can be seen above each of the invention intends to accomplish a different result using different steps or functions.

For example, the invention of Group I, claims 1-14 does not require distributing unfunded cash card and funding and activating the cash card with a predetermined value upon the purchase of the card by a card purchaser, as recited in Group II, claims 15-35.

Art Unit: 3628

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
